EXPLANATION

The New Hampshire Fish and Game Department is in need of a new water supply well at our Milford State Fish Hatchery. Efforts to treat and redevelop our existing well have been unsuccessful. The well pumping performance and the water quality of this well have significantly diminished over time.

The Milford Hatchery utilizes this well year round, and operation of these wells supplies the life supporting water for trout production at the hatchery. Restoring the flow and water quality is vital to continued trout production in the future. In our 2016 angler survey, 92% of NH anglers supported the trout stocking. The Department intends to sole source this contract due to the vendor's history and familiarity with both the existing wells and hatchery operations.

Respectfully submitted,

Glenn Normandeau
Executive Director

Kathy Ann LaBonte, Chief
Business Division

Notice: This agreement and all of its attachments shall become public upon submission to Governor and Executive

The State of New Hampshire and the Contractor hereby mutually agree as follows:
